

All Natural Perimeter Insect Barrier

A Natural Solution proudly offers an All Natural Perimeter Insect Barrier Program. Helping to Keep Insects Outside ~ Where they belong!

Help to protect your home from insect invasion with a barrier treatment around your home's perimeter. Using a product that is safe for pets, kids and plants. Our Perimeter Insect Barrier is an all-natural application, designed to place an insect repelling shield around your home. It is your homes first line of defense against insect populations entering your home.

Our all-natural, Four Application Program helps to constantly keep insect population entering your home under control, so they do not become a nuisance. Total insect eradication is not possible nor is it an environmentally sound practice.

Advantages of A Natural Solution's All Natural Perimeter Insect Barrier Program

- Scheduled timely applications. Timing is key. Getting the barrier in place before insects start to migrate in large numbers is critical.
- Since approx. 90% of insects can be controlled from outside barrier application, the need for interior pest control is greatly reduced.
- Eliminates the need for chemical storage by the homeowner.
- Outdoor applications, so you don't have to be home.

A Natural Solution's All-Natural Perimeter Insect Barrier will help to shield your home from

Aggressive House Spiders • Certain other Spiders • Ants
Beetles • Earwigs • Centipedes / Millipedes
Other crawling insects...

How Can You Help?

Successful Control of Insect populations from entering your home requires the cooperation of the homeowner. Here are some (but not all) the ways you can help enhance the applications effectiveness:

- Check sealing of entry points including those around plumbing, electrical wiring, etc.
- Be certain that all ground level doors seal properly.
- Check caulking around exterior including windows casings.
- Place exterior lighting as far from structure as possible.
- Be sure garbage cans are covered tightly
- Avoid stacking firewood on the ground near the structure.

Our products are *always safe for pets, humans and plants!* Contact us to schedule a *free estimate* or to schedule your All-Natural Perimeter Insect Barrier Program!
